## REGAL BEAGLE ART

---

I create whimsical and sophisticated portraits of your furry friends as a lasting memory of the love and happiness they bring you.

# PRICES AND MEDIUMS

All prices vary on size and amount of detail. Multiple pets in one piece is an extra \$25 per pet. If you do not specify a size it will be automatically made 8.5" x 11". I can make up to a 24" x 36" but it will take much longer to finish than other sizes.

Any portrait can be upgraded to a wooden canvas for \$25.

Above are a pictures of my pets and me.

My name is Baillie and I am a graphic design major in college. Thank you for taking the time to look at my artwork! My goal in life is to make at least one person smile everyday and I like accomplishing that with my artwork. I grew up with animals and they always gave me such joy so I started drawing them in my spare time. I realized that people really loved their animals and it's sad that they can't live forever. As a way to remember the happiness and unconditional love every pet gives I capture their spirit in a drawing. Every time I finish a drawing I'm giving someone a memory of something they love, so I really put a lot of effort and time into each one to make it perfect.

## BLACK AND WHITE PORTRAITS: \$50-\$75

The classic black and white charcoal portrait ranges in price due to sizing and amount of detail going into the piece. Black and white portraits really show off the texture and beauty of the animals fur. These portraits fit well with any color frame and do not clash with any pre-existing home decor.

## COLOR PORTRAITS: \$75-\$100

Color portraits are more unique to each animal. All pets have different markings and characteristics that make them your special pet. These are more personalized and have more character. Color portraits also range in price due to size and detail.
